

## FRONT BUMPERS

MODEL : 408F  
3 Inches, Stainless Steel

## ROLL-BARS

MODEL : 303F  
3 Inches, Stainless Steel

All front bumpers and roll-bar are made by high performance CNC bending machine to define perfection on every curve without wrinkles or ripples. Only premium T304 grade stainless steel is preferred material for making front bumper and roll-bar at our company. Then, all tubular bent is buffed until mirror by hand for perfect touch. Further, all brackets for front bumper and roll-bar are laser cut for more precision on fitting. All stainless steel products are 3 year warrantee rust proof. View warrantee terms for more information. Or visit [www.giantoffroad.com](http://www.giantoffroad.com)
